Recent projects

QUICKUCATE

This is the first commercial project I've been working on. Quickucate is a learning platform where teachers can create courses and add their students. Its a fullstack web application I've been building in my free time

SHIRT.IO

A fullstack e-commerce store for users to buy fully customizable t-shirts with their own images on them.

**ALL OTHER PROJECTS ARE AVAILABLE TO CHECK OUT
ON MY PORTFOLIO WEBSITE**

About me

Im a fullstack web developer able to build both beautiful and flawlessly working applications. Capable of learning new things quickly and effectively. I do not fear challenges – they drive me.
